Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 30 March 2004.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1 and 6 is/are pending in the application.

DETAILED ACTION

Examiner acknowledges that Claims 2-5 and 7-10 have been cancelled in Paper # 9, filed on 3/30/2004.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 1 and 6 are rejected under 35 U.S.C. 103(a) as being unpatentable over Thundat et al. (US Patent No. 6, 050, 722).

Regarding Claim 1, Thundat et al. teach an assembly, comprising:

A temperature sensing element comprising a piezoelectric film for measuring the blackbody radiation of a medium (Col. 8, Lines 5-39. The piezoelectric sensor is known to sense black body radiation as mentioned by the Applicant in Page #8, L. 19-20);

A controller responsive to the temperature sensing element and capable of inputting power to a media based on a measured temperature of the medium (See Abstract. The processor (The processor is also a controller because it controls the apparatus) is capable of inputting power to the medium and is responsive to the temperature being received by the sensors. The processor is also responsive to the temperature being inputted because after the different wavelengths have been

received, the medium proceeds to manipulated the received data (See Col. 3, L. 48-56).).

Claim 6 has limitations similar to those treated in the above rejection, and is met by the references as discussed above. Claim 6 however also recites the following limitations..."a directed energy source for heating a medium (Col. 7, L. 26-67. It is obvious to an artisan of ordinary skill in the art to know that a energy source must be present in the device in order to generate a heating or light source in order to measure black body radiation.)".

Response to Arguments

Applicant's arguments with respect to claims 1 and 6 have been considered but are moot in view of the new ground(s) of rejection due to the newly amended Claims amended on Paper #9, filed on 3/30/2004.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 2651

however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
